	Doctorate:	<i>Dr. rer. soc. oec.</i>	(with honors on March 14, 1997)
	Master:	<i>Mag. rer. soc. oec.</i>	(July 6, 1995)
	Major:	Business Administration (Management Information Systems, Information Economics)	
<b>10/91 - 09/98</b>	<b>University of Vienna – Department of Sports Sciences</b>		
	Doctorate:	<i>Dr. rer. nat.</i>	(with honors on September 28, 1998)
	Master:	<i>Mag. rer. nat.</i>	(with honors on July 5, 1995)
	Major:	Sports Sciences (Sports Administration, Sports Physiology)	
<b>09/93 - 12/93</b>	<b>New York University – Leonard N. Stern School of Business</b>		
	Lectures and seminars of the graduate division (MBA program, 15 credits).		

**Employment History**

- 08/07 - dato Vice President and Head of Department, *MODUL University Vienna, Department of New Media Technology*; A-1190 Vienna, Austria.
- 08/08 - dato Managing Director, *webLyzard technology gmbh*; A-1190 Vienna, Austria.
- 03/06 - 07/07 Professor of New Media and Knowledge Management at *Graz University of Technology, Institute for Knowledge Management*; A-8010 Graz, Austria.
- 03/06 - 07/07 Key Researcher at the *Know-Center, the Austrian K+ Competence Center for Knowledge Management*; A-8010 Graz, Austria.
- 01/06 - 02/06 Visiting Professor at the *University of Western Australia, School of Computer Science and Software Engineering*; Crawley, WA 6009, Australia.
- 11/05 - 12/05 Visiting Professor at *Graz University of Technology, Institute for Information Systems and Computer Media*; A-8010 Graz, Austria.
- 07/05 - 10/05 Associate Professor at *Vienna University of Economics and Business* (see 09/00 – 10/01).
- 01/03 - 06/05 Professor of Information Systems at the *University of Western Australia, School of Economics & Commerce and Graduate School of Management*; Crawley, WA 6009, Australia.
- 07/02 - 12/02 Associate Professor at *Vienna University of Economics and Business* (see 09/00 – 10/01).
- 11/01 - 06/02 Visiting Professor at the *University of Notre Dame Australia, School of Electronic Commerce*; Fremantle, WA 6160, Australia.

- 09/00 - 10/01 Associate Professor at *Vienna University of Economics and Business, Information Systems Department* (tenured); A-1090 Vienna, Austria.
- 04/00 - 08/00 Assistant Professor at *Vienna University of Economics and Business, Information Systems Department* (Electronic Commerce Research Group); A-1090 Vienna, Austria.
- 10/99 - 03/00 Visiting Research Fellow at *Curtin University of Technology, Curtin Business School, Electronic Commerce Network*; Perth, WA 6982, Australia.
- Erwin Schrödinger Research Grant (Austrian Science Fund).
  - OeNB-WU Research Prize (Austrian National Bank, Vienna University of Economics and Business).
- 04/99 - 09/99 Visiting Scholar at the *University of California at Berkeley, Walter A. Haas School of Business, Fisher Center for Information Technology & Market Place Transformation*; Berkeley, CA 94720, USA.
- Erwin Schrödinger Research Grant (Austrian Science Fund).
  - OeNB-WU Research Prize (Austrian National Bank, Vienna University of Economics and Business).
- 10/98 - 03/99 Visiting Research Fellow at *Curtin University of Technology* (see 10/99 – 03/00).
- 10/96 - 09/98 Assistant Professor at *Vienna University of Economics and Business, Information Systems Department*; A-1090 Vienna, Austria. Research groups: “Strategic Information Management” (10/96 – 02/97) and “Electronic Commerce” (03/97 – 09/98).
- 08/96 - 09/96 Intern at the *Austrian Trade Commission* in Vancouver, B.C. V6C 1S4, Canada. Market research, revision of sales strategies, IT-consulting with special regard to the potential of the Internet for reorganizing internal processes.
- 05/96 - 07/96 University Assistant (Doctoral Student and Lecturer) at the *Vienna University of Economics and Business, Information Systems Department*; A-1090 Vienna, Austria. Research group: “Office and Mass Information Systems”.
- 01/91 - 10/96 Freelancer in the field of desktop publishing; design of documents and promotional material for various organizations.
- 04/89 - 07/92 Instructor at the *Computer School Donauzentrum*; A-1220 Vienna, Austria. Major topics: operating systems, standard software, programming languages (BASIC, Pascal, Modula-II), multimedia; conceptual and typographic design of learning material.
- 07/90 - 02/91 Military duty at the *Theresianische Militärakademie*; A-2700 Wiener Neustadt, Austria (Military Academy, Department of Continuing Education). Database implementation and maintenance, design of presentation material.
- 07/86; 07/87 Trainee at the *Jungheinrich Austria VertriebsgesmbH*; A-1230 Vienna, Austria. Invoicing and database maintenance at the technical service department.

## Selected Research Projects

01/05 - dato

**Media Watch on Climate Change:** To increase awareness and the availability of environmental information, the Media Watch on Climate Change provides a comprehensive and continuously updated account of online media coverage on climate change and related issues. The portal aggregates, filters and visualizes environmental content from the Web sites of various stakeholders: 150 Anglo-American news media sites, blogs, environmental organizations, and the Fortune 1000 companies ([www.ecoresearch.net/climate](http://www.ecoresearch.net/climate)).

- Austrian National Award for Multimedia and e-Business 2009: Jury Prize in the category ‘Energy, Climate and Environment’ ([www.multimedia-staatspreis.at](http://www.multimedia-staatspreis.at)).
- Finalist of the Semantic Web Challenge 2007 ([challenge.semanticweb.org](http://challenge.semanticweb.org)).
- Winner of the Digital Earth 3D Visualization Challenge 2007, held in conjunction with the 5th International Symposium on Digital Earth ([www.isde5.org](http://www.isde5.org)).

01/03 - dato

**ECOresearch:** The interdisciplinary *Research Network on Environmental Online Communication* brings together scientists of different backgrounds to explore the development, management, promotion and evaluation of networked information systems that advocate sustainability and the protection of natural ecosystems. The network supports the research activities of its members, identifies synergies between related projects, and co-organizes the *Minitrack on Information Systems and Decision Technologies for Sustainable Development* at the *Hawaii International Conference on Systems Sciences* ([www.ecoresearch.net](http://www.ecoresearch.net)).

10/98 - dato  
webLyzard

webLyzard analyzes more than 15,000 Web sites in weekly or daily intervals to track topical trends and gain a deeper understanding of electronic content. It utilizes the vast amount of information available from electronic sources (news media, corporate Web sites, blogs, social networking platforms, etc.) for business intelligence, trend analyses, benchmarks, and customized reports. Thereby, webLyzard helps marketing and public outreach managers to monitor emerging trends and improve their organizations' online communication strategies ([www.weblyzard.com](http://www.weblyzard.com)).

10/07 - 04/09

**US Election 2008 Web Monitor:** The US Election 2008 Web Monitor embraces the influential role of social media in presidential elections and analyzes the online coverage of different stakeholders. For this purpose, it captures the Web sites of international media, the Fortune 1000, environmental NGOs and political blogs. For each presidential candidate, the system extracts media attention, sentiment, and associated keywords from a large repository of Web resources ([www.ecoresearch.net/election2008](http://www.ecoresearch.net/election2008)).

➤ Austrian National Award for Multimedia and e-Business 2008: First Prize in the category 'Online Communities, Web 2.0 and Social Networks' ([www.multimedia-staatspreis.at](http://www.multimedia-staatspreis.at)).

01/08 - 06/10

RAVEN

**RAVEN – Relation Analysis and Visualization for Evolving Networks:** In Norse mythology, the two ravens Hugin and Munin – thought and memory, respectively – scout for the father of the gods Odin, keeping him up-to-date about the unfolding of events in the nine worlds. Similarly, RAVEN keeps analysts and decision-makers up-to-date about the unfolding of events in endogenous and exogenous information spaces, which reflect interconnected events and processes of the real world. RAVEN aims to understand the evolution of such spaces by analyzing temporal-semantic relations between their elements.

10/06 - 04/08

idiom

**IDIOM – Information Diffusion across Interactive Online Media:** Linguists define “idiom” as expression whose meaning is different from the literal meanings of its component words. Similarly, the study of information diffusion promises insights that cannot be inferred from individual network elements. Media monitoring projects often focus on a particular medium or neglect important aspects of the human language. IDIOM addresses these gaps to reveal fundamental mechanisms of information diffusion across media with distinct interactive characteristics (Web Sites, RSS feeds, blogs etc.).

01/06 - 12/07

**AVALON – Acquisition and VALidation of Ontologies:** Valuable knowledge that surrounds the workflows of business entities can be extracted automatically and represented as ontological structure. The methodology is built upon a cybernetic control system to automatically align extracted knowledge with business processes, external indicators and individual expertise. The project's adaptive services are particularly useful in volatile business environments, which require dynamic reconfiguration of business processes and a flexible allocation of resources.

07/04 - 12/04

**US Election 2004 Web Monitor:** How do international media, the Fortune 1000 and environmental organizations tailor electronic content to fit their political agenda? To answer this question, the *US Election 2004 Web Monitor* processed more than 500,000 documents in weekly intervals – about 125 million words in 11 million sentences. Estimates of attention and attitude towards presidential candidates complemented keywords summarizing the main issues associated with each candidate ([www.ecoresearch.net/election2004](http://www.ecoresearch.net/election2004)).

10/02 - 03/04

ECOINVEST

**EcoInvest:** Conceptual development of an independent investment portal for socially and ecologically responsible investments; in a joint effort with the *Austrian Society for Environment and Technology* and the *Austrian Federal Ministry of Agriculture, Forestry, Environment and Water Management*, the project also evaluated and compared the applicability of open-source content management systems.

07/02 - 01/03

**La Gamba Relaunch:** With special regard to the organizational structure of small scientific institutions and regional peculiarities of the *Tropical Station La Gamba* in Costa Rica, this project pursued the following goals: Analysis of organizational structures, reorganization of internal information flows, and development of an interactive platform including reservation system and research database ([www.lagamba.at](http://www.lagamba.at)).

01/01 - 03/02

**European eContent Tourism Survey:** Longitudinal survey on behalf of the *Austrian Federal Economic Chamber*, which contrasted a sample of 500 Austrian tourism sites with the international competition. Selected results were presented at the *European Forum Alpbach* in August 2001 ([www.alpbach.org](http://www.alpbach.org)).

- 10/97 - 07/98  
 **webMapper:** Acquisition of implicit and explicit user feedback by means of online observations and questionnaires; review of commercially available Web-tracking software for analyzing and visualizing customer access patterns.
- 03/97 - 01/98  
 **Electronic Market Transactions:** Reference modeling of interactive Web sites for the food retail industry; based on an initial assessment of standardized solutions to build and maintain electronic transaction systems.
- 10/96 - 01/97  
 **Xerox.at:** Conceptual development and technical implementation of a Web-based information system for *Rank Xerox Austria*, built on top of the Lotus Notes (Domino) server architecture (www.xerox.at).
- 09/95 - 12/96  
 **MotoMIR:** Data analysis and interpretation at the *Department of Sports Physiology of the University of Vienna* to develop models of muscular atrophy under conditions of micro-gravity (part of the Austro-Russian aerospace cooperation).

## Teaching Experience

### MODUL University Vienna

- 08/10 - dato Online Collaboration, Virtual Communities and Social Networks (MBA Unit, 3 Credits).  
 05/10 - dato Electronic Content Production (MBA Unit, 3 Credits).  
 03/08 - dato e-Business (BBA Lecture, 3 Credits).  
 08/08 - 09/08 Web Mining and Media Monitoring (MBA Unit, 3 Credits).

### Graz University of Technology

- 10/06 - 06/07 Electronic Commerce (Lecture and Seminar, 3 Credits).  
 03/06 - 06/06 Knowledge Management Applications (Lecture and Seminar, 3 Credits).

### University of Western Australia

- 03/05 - 06/05 Special Topics in Marketing – Web Intelligence (Postgraduate Unit, 3 Credits).  
 03/03 - 06/05 Marketing Information Systems (Undergraduate Unit, 3 Credits).  
 10/04 - 01/05 Electronic Commerce (MBA Unit, 3 Credits).  
 02/03 - 01/04 Information Management (MBA Unit, 3 Credits).

### Vienna University of Economics and Business

- 10/02 - 01/03 Introduction to Corporate Information Systems (Lecture, 2 Credits).  
 10/02 - 01/03 Information Systems Analysis (Lecture, 2 Credits).  
 03/01 - 01/03 Web Engineering (Lecture and Seminar, 2 Credits).  
 10/96 - 01/03 Management Information Systems Seminar with Special Regard to Methodological and Theoretical Aspects (Seminar, 2 Credits).  
 10/96 - 07/01 Electronic Data Processing: Operating Systems, End-User Tools and Internet-based Information Services (Seminar, 2 Credits).  
 10/97 - 07/98 Business Process Modeling (Lecture, 2 Credits).  
 10/97 - 07/98 Problem Solving with End-User Tools (Lecture and Seminar, 2 Credits).

### Curtin University of Technology

- 10/99 - 12/99 Electronic Commerce & Web Site Management: Co-supervision of a project to assess and apply commercial Web development tools (seminar, 2 credits).
